# About Us

PLUS Change is a **Horizon Europe Project** that takes a transdisciplinary, systems approach to developing new land use strategies and decision making processes. Our Consortium consists of 23 partners, involving expertise from the sciences, social sciences, humanities, and arts.

# Objectives

Characterise **expected future land use patterns** at different time & spatial scales.

Produce **land use strategies to achieve long term policy objectives**, identifying pathways & intervention points for implementation.

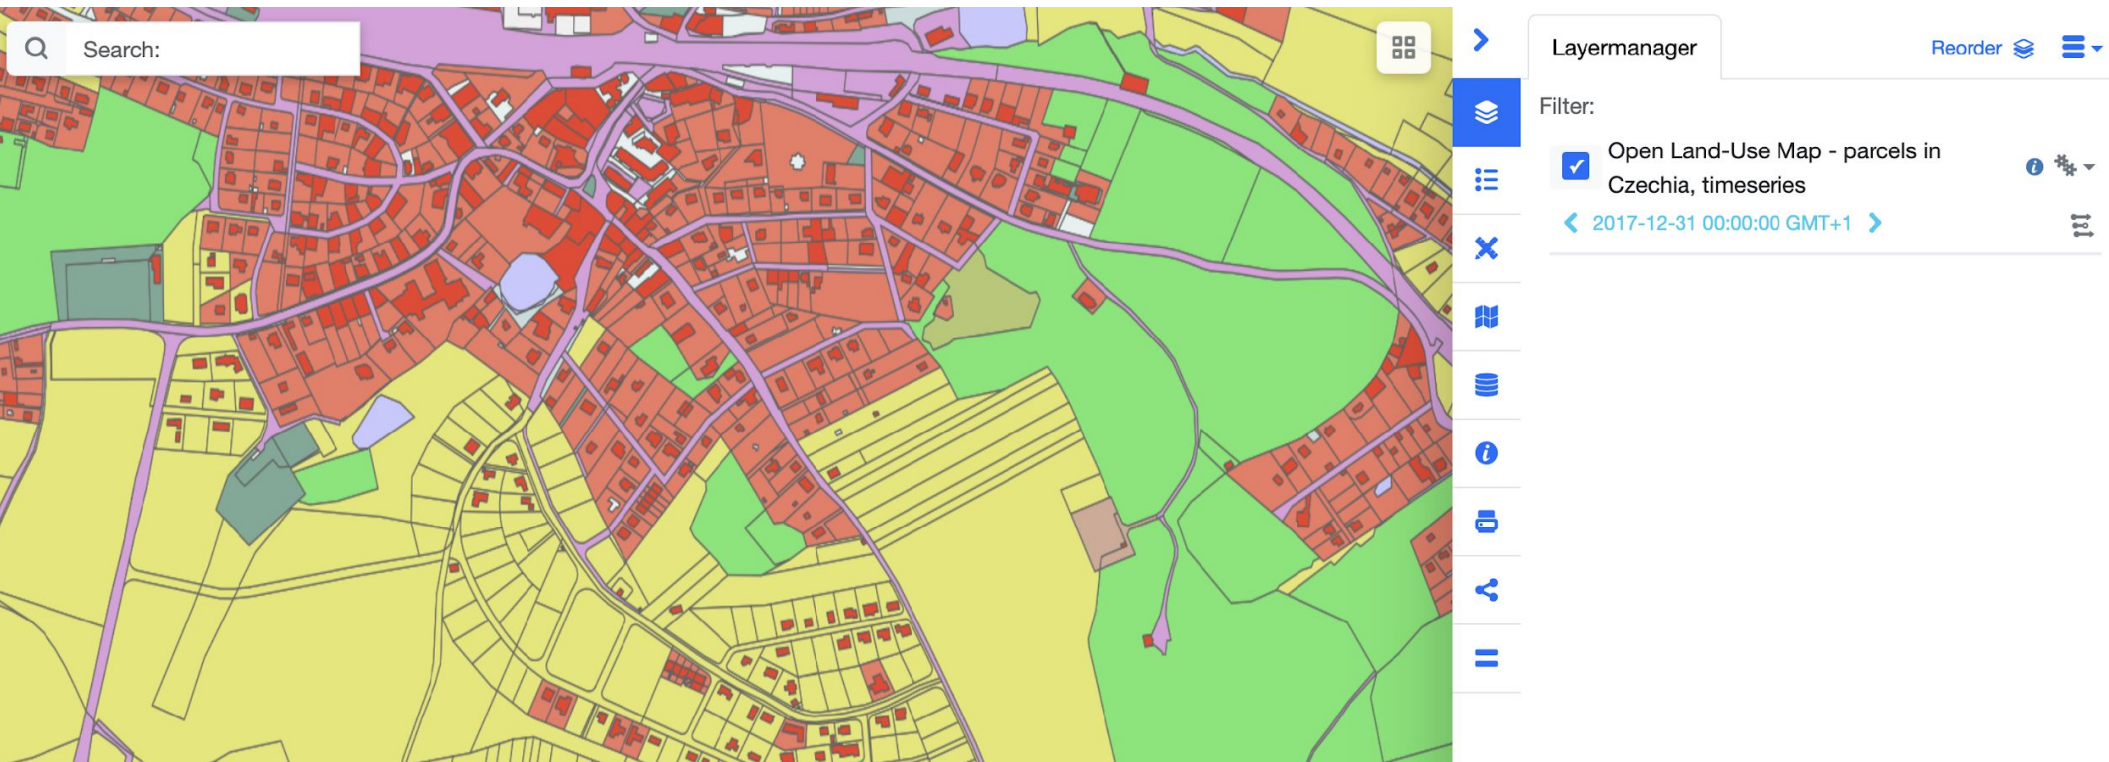

Create **recommendations for intervention points** in governance.

Co-develop a **toolbox to support land use planners**.

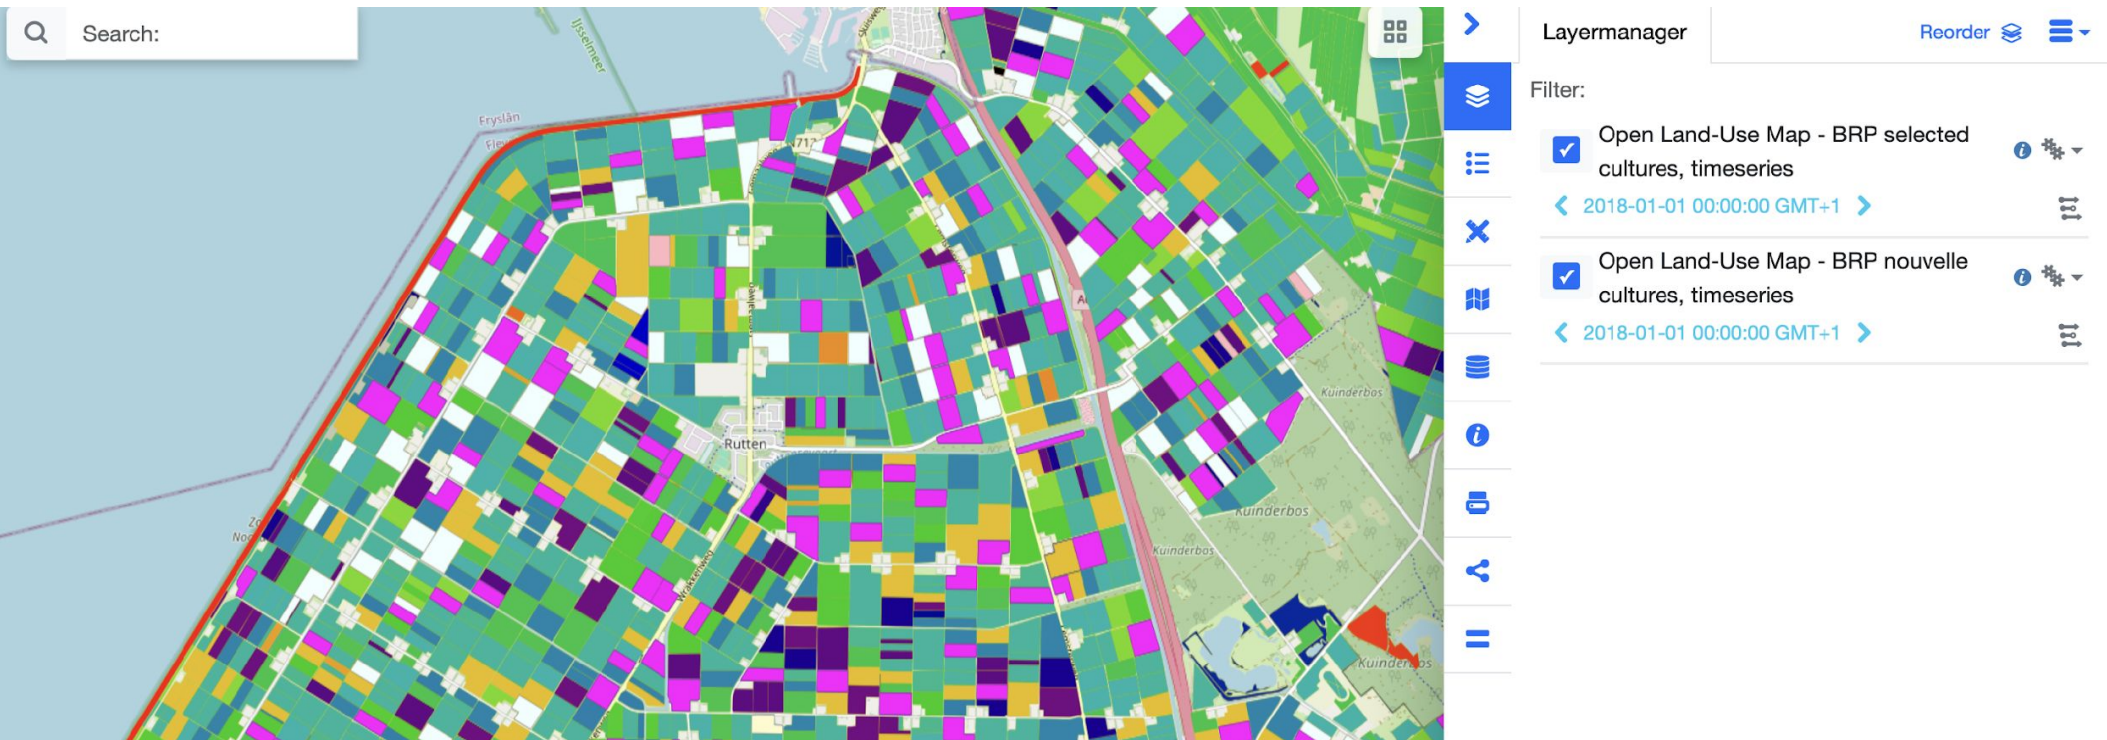

- **Sběr a vizualizace dat o:**
  - změnách využití území
  - nových typech využití území
  - nových zemědělských kulturách
